SNOW CATALOG

# ENJOY THE RIDE

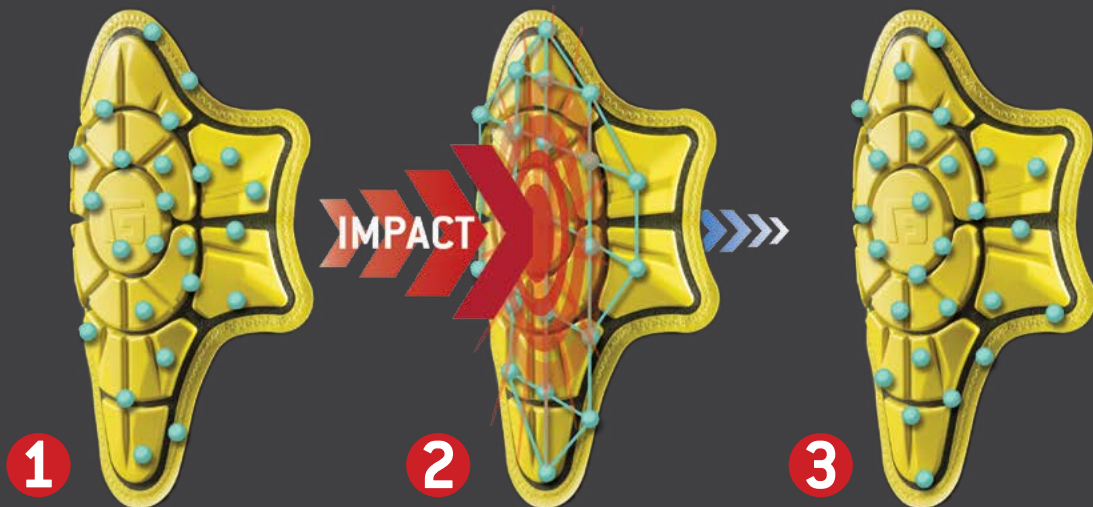

Whether it's big mountain or terrain park, whether it's exploring the backcountry or finally sticking a new trick, the reason we ski and ride is for the feeling of adventure, the feeling of pushing past where we've been before. G-Form protective apparel and sleeves help keep you safe and comfortable on your adventures, whatever form they take, and wherever they may take you.

G-Form. Protection for every body.

# HOW IT WORKS

G-FORM REACTIVE PROTECTION TECHNOLOGY (RPT™) USES PROPRIETARY, PATENTED TECHNOLOGY AND DESIGNS TO PROVIDE THE BEST COMBINATION OF IMPACT PROTECTION, COMFORT AND PERFORMANCE OF ANY HIGH-PERFORMANCE PROTECTIVE APPAREL, ANYWHERE. SOFT AND FLEXIBLE UNTIL THE MOMENT OF IMPACT, YOU'LL ONLY NOTICE YOU'RE WEARING IT WHEN YOU NEED IT.

## AT REST

At rest, the molecules in G-Form RPT products slightly repel each other, making the pads soft and flexible for unparalleled comfort and range of motion.

## UPON IMPACT

Upon impact, the molecules instantly bind together, hardening the material, dissipating and dispersing the energy, and keeping the wearer protected.

## AFTER IMPACT

After the moment of impact, the molecules once again repel each other, returning the pads to their soft, flexible and comfortable state.

## KEY COVERAGE

Our body-mapped designs cover vulnerable areas to ensure impact protection where it's needed most.

## ARTICULATED DESIGN

Flexible at key locations, G-Form products ensure total freedom of movement.

## DURABLE CONSTRUCTION

Built from high-end materials, our pads withstand high-level athletic activity.

## LOW PROFILE

Sleek and streamlined, G-Form products provide a close fit for comfort and easy athletic movement.

## MAXIMUM COMFORT & COMPRESSION FIT

The close, supportive fit provides maximum comfort and support for muscles and joints.

# WHAT YOU

# DON'T SEE

Protection that augments  
athletic performance

## PRO SLEEVES **ELITE PROTECTION**

Designed for optimal fit, comfort and protection.

## PROTECTION FOR EVERY BODY.™

Nothing in the mountains comes free. Every time you take to the snow, you're risking your body. Lay it on the line with G-Form products, the perfect base layer to keep you protected. Our innovative Reactive Protection Technology™ (RPT) transforms on impact from a soft, malleable and comfortable material into impact-absorbing armor, dissipating nearly all of the energy from the blow. After impact, it instantaneously returns to its soft, flexible state, so you can return your focus to the perfect line.
