# PROTECTION FOR EVERY BODY.™

Are you ready to be unstoppable? We're calling all boundary pushers, overcomers, challengers, and innovators to step on the pitch and change the game. Whether you're evading challenges to score the game winning goal, making a last ditch tackle, or making an impossible diving save, G-Form has you covered. Our innovative Reactive Protection Technology™ (RPT™) transforms on impact from a soft, malleable and comfortable material into impact-absorbing armor, dissipating nearly all the energy from the blow. After impact, it instantaneously returns to its soft, flexible state so you can keep your focus on the game instead of your equipment.

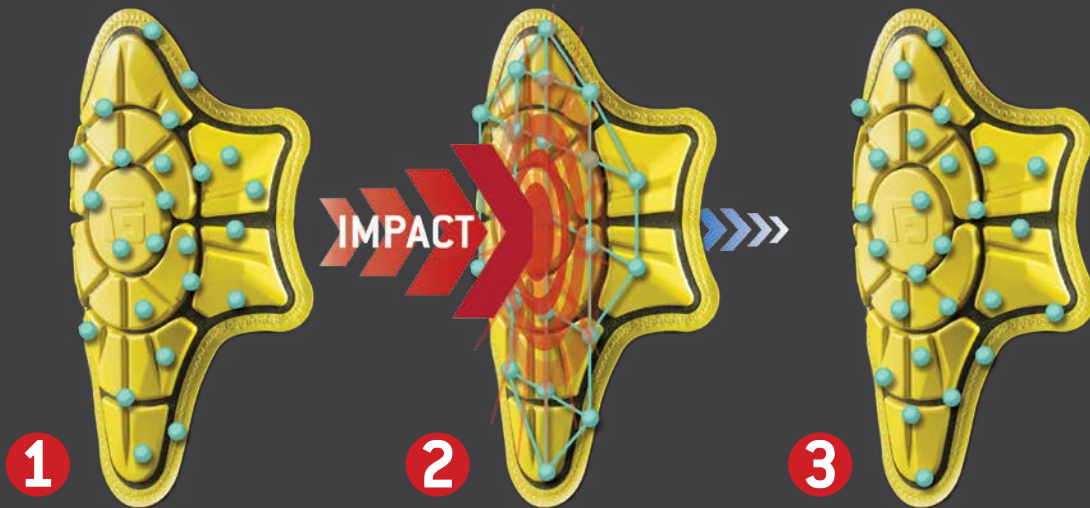

# HOW IT WORKS

G-FORM REACTIVE PROTECTION TECHNOLOGY (RPT™) USES PROPRIETARY, PATENTED TECHNOLOGY AND DESIGNS TO PROVIDE THE BEST COMBINATION OF IMPACT PROTECTION, COMFORT AND PERFORMANCE OF ANY HIGH-PERFORMANCE PROTECTIVE APPAREL, ANYWHERE. SOFT AND FLEXIBLE UNTIL THE MOMENT OF IMPACT, YOU'LL ONLY NOTICE YOU'RE WEARING IT WHEN YOU NEED IT.

RPT™  
Reactive  
Protection  
Technology™

1

## AT REST

At rest, the molecules in G-Form RPT products slightly repel each other, making the pads soft and flexible for unparalleled comfort and range of motion.

2

## UPON IMPACT

Upon impact, the molecules instantly bind together, hardening the material, dissipating and dispersing the energy, and keeping the wearer protected.

3

## AFTER IMPACT

After the moment of impact, the molecules once again repel each other, returning the pads to their soft, flexible and comfortable state.

A person is shown from the knees down, wearing black shin guards with yellow-green accents. The guards have a segmented, articulated design. Callout lines point from text boxes to specific features: 'KEY COVERAGE' points to the front of the shin; 'ARTICULATED DESIGN' points to the joints of the segments; 'MAXIMUM COMFORT & COMPRESSION FIT' points to the top of the guard; 'DURABLE CONSTRUCTION' points to the side of the guard; and 'LOW PROFILE' points to the bottom edge of the guard. The person is also wearing black soccer cleats.

### KEY COVERAGE

Our body-mapped designs cover vulnerable areas to ensure impact protection where it's needed most.

### ARTICULATED DESIGN

Flexible at key locations, G-Form products ensure total freedom of movement all match long.

### MAXIMUM COMFORT & COMPRESSION FIT

The close, supportive fit provides maximum comfort and support for muscles and joints.

### DURABLE CONSTRUCTION

Built from high-end materials, our pads withstand whatever the game throws at you season after season.

### LOW PROFILE

Sleek and streamlined, G-Form products fit like second-skin and never interfere with your play.

## GAME ON!

So you're walking off the pitch with the satisfied feeling only a great game can bring. Now what? Simply take off your G-Form products, throw them in the washing machine, dry, and they're fresh and ready to go again. Because it's not just about one game, one tackle, or one goal. It's about the feeling you get with the ball at your feet. A perfect first touch, a sweetly struck shot, or an inch perfect pass are golden moments that keep you coming back for more. G-Form protective apparel and sleeves help keep you safe and comfortable regardless of the pitch or position you play. So go on! Get out there and play!

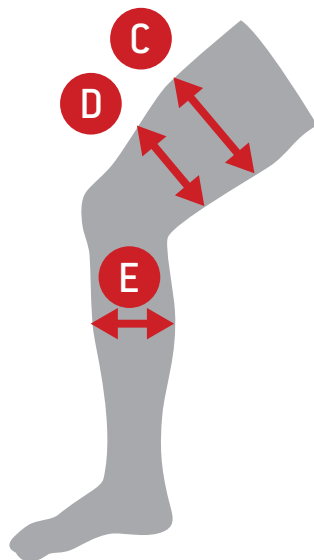

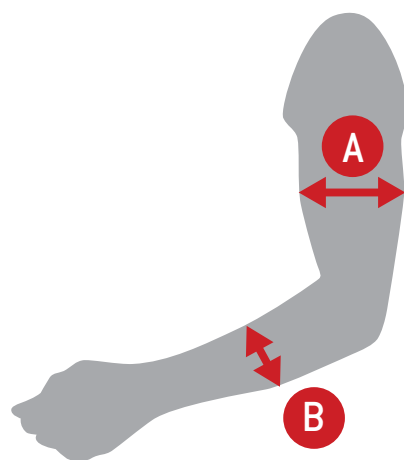

G-Form. Protection for every body.
